

MAGNIFY

(3-0-3-1)

GUARANTEED ANALYSIS

Total Nitrogen (N) 3%
Soluble Potash (K₂O)..... 3%
Sulfur (S) 1%

Source of nutrients: Magnify
Density = 10.38 Lbs/ per gallon

BENEFITS OF ADDING MAGNIFY

- MAGNIFY has humectant properties to keep fungicide products active on the leaf surface longer for increased uptake and efficiency.
- Improved foliar absorption by keeping more product on leaf longer.
- Excellent tank-mix partner with Fungicides during pre-tassel, tassel and post-tassel applications to maximize Fungicide performance and crop safety.
- LOW pH spray solution provides accelerated plant absorption
- Drift Control by providing uniform droplet size while helping to penetrate the canopy to provide maximum coverage and protection.

APPLICATION

- MAGNIFY maybe applied as a foliar treatment by ground rig or aerial application
- By air, apply 2-4 quarts per acre of ELEVATE + and 1 quart per acre of MAGNIFY in 2 to 10 gallons of spray solution.
- Always add ELEVATE + and MAGNIFY to the tank last and mix thoroughly.
- Not compatible with Round-Up Powermax Brands.
